Option D

This plan is available to residential and single line business customers, presubscribed to PRT Larga Distancia for both, intrastate and interstate toll services. This option offers two rate periods (Peak and Off Peak) for all direct dialed and operator assisted calls. Peak period rate applies for connections from 8:00 A.M. up to but not including, 8:00 P.M.; and Off Peak period rate applies from 8:00 P.M. up to but not including, 8:00 A.M.. Calls placed within the Peak period will be rated at \$0.09 per minute; calls placed within the Off Peak period will be rated at \$0.07 per minute. A uniform rate per minute applies within each rate period, regardless of mileage, seven days a week. For billing purposes, calls will be rated in full minute increments. A monthly minimum usage (MMUC) of \$1.95 per presubscribed line will apply. For the purpose of calculating the MMUC, intrastate and interstate long distance calls will be considered. If the customer's monthly charges are less than the MMUC, the customer will be billed the difference between the MMUC and the actual monthly usage. The MMUC will always apply whether long distance calls are placed or not. Operator assisted calls are also subject to surcharges as specified in Section 3.2.4. This option will only be available to customers subscribed to Option B and is not available to new customers.
